

# BREED SELECTION

SINGLE PROTEIN & GRAIN FREE

***Developed specifically for the needs of your dog's breed***

We only use beef as the sole source of animal protein for our hypoallergenic feed and regular as well as sweet potatoes supply the carbohydrates. The resulting grain free product is particularly suited for dogs with sensitive digestion. For easier consumption and improved [chewing behavior] the croquettes are fitted to the different breeds' jaws and teeth. Likewise, the amounts of protein, energy, fibres and fat are tailored to their respective needs and supplemented by functional ingredients relevant in regard to the breeds health dispositions

## ***We take responsibility for the wellbeing of humans and animals.***

Premium raw materials, our sustainable and eco-friendly manufacturing process, as well as the transportation distances, which are kept as short as possible, are the defining quality features of our product and guarantee an appropriate diet for your dog.

The newly developed Wildsterne Breed Selection meets our high requirements regarding the species-appropriate and, in particular, healthy diet of dogs and caters to the still rising demand of grain-free products.

### **✓ *Single Protein***

Plenty of beef provides a hearty taste and exceptional acceptance. As the exclusive source of animal protein in the Wildsterne products it is the most important ingredient.

### **✓ *Grain Free***

Breed Selection does not contain gluten or wheat. Instead notably eupeptic/easy to digest potatoes and sweet potatoes make it suitable for dogs with a sensitive digestion or allergies.

### **✓ *Designed by veterinarians***

Based on numerous scientific studies and other research our veterinarian, in collaboration with her colleagues, breeders and dog owners, composed the ideal Breed Selection mixture.

### **✓ *No animal testing***

In the process of developing our products there is absolutely NO animal testing involved. Instead we utilize the scores of available scientific research papers.

### **✓ *Locally produced***

Not just the quality, but also sustainability and a reduction of transportation distances are highly valued at Wildsterne. Therefore Breed Selection is produced at the foothills of the alps.

✓ ***Breed-specific optimization***

All of our mixtures and croquettes are cut out for the individual and nutritional needs caused by genetic predispositions of the different breeds.

✓ ***No category 3 material***

Only animal products fit for human consumption are processed for our dog food. Horns, claws or similar bodyparts are not used in production!

✓ ***No menadione***

Ongoing discussions about potential harmful side effects of synthetic vitamin K<sub>3</sub> lead to our decision to not use menadione until conclusive results are available.

✓ ***Natural ingredients***

Genuine food without any restrictions is dear to our heart. For this reason we don't use artificial flavouring or colours and no attractants.

✓ ***Low crude ash content***

Going easy on the dog's metabolism and thus avoiding long-term damage to its kidneys, the reduced ash content is made possible by the outstanding quality of our raw materials.

✓ ***Balanced protein content***

A surplus of protein can have a negative influence on the dog's behavior and puts strain on its metabolism. That is why our products contain only a moderate amount of protein.

## Breed Selection Chihuahua

Complete feed for adult dogs especially for Chihuahuas from 8 months.

Improves dental and mouth hygiene, a thick and shining fur, a healthy digestion and good acceptance.

Special dental care croquettes and sea algae (Ascophyllum nodosum) aid mouth hygiene.

Contains an extra dosage of important nutrients like zinc and biotin, which are needed for a thick fur as well as essential fatty acids from salmon and sunflower oil.

A lot of beef, prebiotic dietary fibre (Inulin from chicory) and Yucca schigidera extract support a healthy intestinal flora and digestion.

### Analytical constituents:

- Crude protein: 23%
- Crude oils and fats: 16%
- Crude fibres: 2.5%
- Crude ash: 5%
- Calcium: 0.9%
- Phosphorus: 0.75%
- Magnesium: 0.06%

### Ingredients:

Beef (32%), Sweet potatoes, Potatoes, Lignocellulose, Salmon oil (3%), Minerals, Sunflower oil (1%), Inulin (0.9%), Blueberries (0.5%), Seaweed Ascophyllum nodosum (0.1%), Yucca schidigera (0.1%), Beer yeast, New Zealand green-lipped mussel - finely ground (0.1%).

### Additives (per kg):

Nutritional additives: Vitamin A: 18000IE, Vitamin D3: 1200IE, Vitamin E: 150mg, Biotin: 1500µg, L-carnitine: 500mg, Copper (copper (II) sulphate, pentahydrate / E4): 7mg, Zinc (zinc oxide / E6): 150mg, Iodine (calcium iodate anhydrous / E2): 2mg, Selenium (sodium selenite / E8): 0.2mg, Manganese (manganese oxide / E5): 7.5mg. Technological additives: Pentasodium triphosphate 2000mg. With antioxidants.

## Breed Selection Pug

Complete feed for adult dogs especially for Pugs from 10 months.

Helps to keep their ideal weight, healthy skin and promotes dental and mouth hygiene.

Special croquettes suitable for brachycephalic jaws with dental care formula and seaweed (*Ascophyllum nodosum*).

Sufficient amounts of Omega-3 and Omega-6 fatty acids from salmon and sunflower oil, zinc, biotin, copper and vitamins guarantee a healthy skin and fur.

Low on fat, but with extra L-carnitine, Psyllium husks and prebiotic dietary fibre (Inulin from chicory) the feed makes it more easy to keep the pug at its ideal weight.

### Analytical constituents:

- Crude protein: 26%
- Crude oils and fats: 11%
- Crude fibres: 3.5%
- Crude ash: 5%
- Calcium: 0.9%
- Phosphorus: 0.7%
- Magnesium: 0.06%

### Ingredients:

Beef (31%), Sweet potatoes, Potatoes, Lignocellulose, Minerals, Salmon oil (2%), Sunflower oil (1%), Psyllium seed husks (0.5%), Blueberries, Inulin (0.4%), Seaweed *Ascophyllum nodosum* (0.2%), Beer yeast, New Zealand green-lipped mussel - finely ground (0.1%).

### Additives (per kg):

Nutritional additives: Vitamin A: 18000IE, Vitamin D3: 1200IE, Vitamin E: 150mg, Vitamin C: 45mg, Vitamin B2: 80mg, Vitamin B3: 400mg, Biotin: 1500µg, L-carnitine: 500mg, Copper (copper (II) sulphate, pentahydrate / E4): 7mg, Zinc (zinc oxide / E6): 150mg, Iodine (calcium iodate anhydrous / E2): 2mg, Selenium (sodium selenite / E8): 0.2mg, Manganese (manganese oxide / E5): 7.5mg. Technological additives: Pentasodium triphosphate 2000mg. With antioxidants.

## Breed Selection French Bulldog

Complete feed for adult dogs especially for French Bulldogs from 12 months.

Supports the dog's strong muscles and a thick and shiny fur as well as dental and mouth hygiene.

Croquettes with dental care formula and seaweed (*Ascophyllum nodosum*), which are also optimised for brachycephalic jaws.

Contains essential fatty acids from salmon and sunflower oil, zinc, biotin, copper and the vitamins A and E, which are the foundation for a healthy fur.

A lot of protein, L-carnitine and magnesium ensure a smoothly working muscle metabolism and therefore muscle function

### Analytical constituents:

- Crude protein: 26%
- Crude oils and fats: 11%
- Crude fibres: 3.5%
- Crude ash: 5%
- Calcium: 0.9%
- Phosphorus: 0.7%
- Magnesium: 0.06%

### Ingredients:

Beef (31%), Sweet potatoes, Potatoes, Lignocellulose (4%), Minerals, Salmon oil (2%), Sunflower oil (1%), Psyllium seed husks (0.5%), Blueberries, Inulin (0.4%), Seaweed *Ascophyllum nodosum* (0.2%), Beer yeast, New Zealand green-lipped mussel - finely ground (0.1%).

### Additives (per kg):

Nutritional additives: Vitamin A: 18000IE, Vitamin D3: 1200IE, Vitamin E: 150mg, Vitamin C: 45mg, Vitamin B2: 80mg, Vitamin B3: 400mg, Biotin: 1500µg, L-carnitine: 500mg, Copper (copper (II) sulphate, pentahydrate / E4): 7mg, Zinc (zinc oxide / E6): 150mg, Iodine (calcium iodate anhydrous / E2): 2mg, Selenium (sodium selenite / E8): 0.2mg, Manganese (manganese oxide / E5): 7.5mg. ## Breed Selection Boxer

Complete feed for adult dogs especially for Boxers from 15 months.

The ingredients focus on aiding the health of joints, the heart and the intestines.

Copious amounts of prebiotic fibre (Inulin from chicory) and Yucca schigidera extract reduce dyspepsia and benefit the intestinal flora.

Boosts heart function with help from L-carnitine, taurine and additional vitamins (C,B,E), salmon oil and blackberries.

Chondroitine and glucosamine protect cartilage, as well as New Zealand green-lipped mussel (Perna canaliculus), rosehips and salmon oil.

### Analytical constituents:

- Crude protein: 23%
- Crude oils and fats: 16%
- Crude fibres: 2.5%
- Crude ash: 5%
- Calcium: 0.9%
- Phosphorus: 0.7%
- Magnesium: 0.06%

### Ingredients:

Beef (32%), Sweet potatoes, Potatoes, Lignocellulose, Salmon oil (3%), Minerals, Sunflower oil (1%), Blueberries (0.5%), Rose hip (0.5%), Inulin (0.4%), Glucosamine (0.15%), Chondroitin (0.1%), Yucca schidigera (0.1%), Beer yeast, New Zealand green-lipped mussel - finely ground (0.1%).

### Additives (per kg):

Nutritional additives: Vitamin A: 18000IE, Vitamin D3: 1200IE, Vitamin E: 200mg, Vitamin C: 45mg, Vitamin B2: 180mg, Vitamin B12: 150µg, Vitamin B3: 400mg, Folic acid: 6mg, Biotin: 1500µg, L-carnitine: 500mg, Taurine: 2000mg, Copper (copper (II) sulphate, pentahydrate / E4): 7mg, Zinc (zinc oxide / E6): 150mg, Iodine (calcium iodate anhydrous / E2): 2mg, Selenium (sodium selenite / E8): 0.2mg, Manganese (manganese oxide / E5): 7.5mg. ## Breed Selection Golden Retriever

Complete feed for adult dogs especially for Golden Retrievers from 15 months.

Helps to build long-lasting, durable joints, healthy fur and to give a feeling a satiety, amongst other things, contributing to keeping the dog at its ideal weight.

Low contents of fat, additional L-carnitine and the prebiotic fibre inulin aid in retaining the ideal weight, while Psyllium husks give a feeling of satiety.

To protect cartilage and joints an extra dose of chondroitin, glucosamine, New Zealand green-lipped mussel (*Perna canaliculus*), rosehips and salmon oil is added.

Contains essential fatty acids from sunflower and salmon oil, zinc, biotin, copper and vitamins A & E, which form the basis for a healthy and good-looking fur.

### Analytical constituents:

- Crude protein: 26%
- Crude oils and fats: 11%
- Crude fibres: 3.5%
- Crude ash: 5%
- Calcium: 0.9%
- Phosphorus: 0.7%
- Magnesium: 0.06%

### Ingredients:

## Breed Selection Labrador Retriever

Complete feed for adult dogs especially for Labrador Retrievers from 15 months.

Supports muscle metabolism, functionality of the natural skin barrier, gives a feeling of satiety and helps keeping the dog at its ideal weight.

Low contents of fat, additional L-carnitine and the prebiotic fibre inulin aid in retaining the ideal weight, while Psyllium husks give a feeling of satiety.

Contains essential fatty acids from sunflower and salmon oil, zinc, biotin, copper and vitamins A & E, which form the basis for a healthy and good-looking fur.

Plenty protein and magnesium and furthermore additional L-carnitine sustain healthy muscles by improving their metabolism.

### Analytical constituents:

- Crude protein: 26%
- Crude oils and fats: 11%
- Crude fibres: 4%
- Crude ash: 5%
- Calcium: 0.9%
- Phosphorus: 0.65%
- Magnesium: 0.12%

### Ingredients:

Beef (31%), Sweet potatoes, Potatoes, Lignocellulose (4%), Minerals, Salmon oil (2.5%), Sunflower oil, Psyllium seed husks, Blueberries, Rose hip, Inulin (0.4%), Beer yeast, New Zealand green-lipped mussel - finely ground (0.1%).

### Additives (per kg):

Nutritional additives: Vitamin A: 18000IE, Vitamin D3: 1200IE, Vitamin E: 150mg, Vitamin C: 45mg, Vitamin B3: 400mg, Biotin: 1500µg, L-carnitine: 500mg, Copper (copper (II) sulphate, pentahydrate / E4): 6mg, Zinc (zinc oxide / E6): 150mg, Iodine (calcium iodate anhydrous / E2): 2mg, Selenium (sodium selenite / E8): 0.2mg, Manganese (manganese oxide / E5): 7.5mg.
